

SAMUEL FAGERHOLM

Football Coach

I am a driven and ambitious person who has worked as a football coach at an elite level in recent years. That has given me the opportunity to learn a lot about the game and, above all, I have been able to develop my leadership in a demanding environment.

Being able to lead and help other people to develop and find their potential is important to me. I believe in the power of good leadership to be able to create an environment where players and leaders can thrive and be challenged at the same time. It is important to me to build strong relationships with those around me and I also want to make room for others to come forward and be able to influence their situation, take ownership.

Through a good insight into what is required at the highest level in football and an ability to teach, I can give both players and staff a positive development
